

COASTAL ARBORISTS ASSOCIATION & SAVANNAH TREE FOUNDATION PRESENT:

"Live Oaks in the Built Environment"

Dr. Kim Coder, UGA Warnell School of Forestry and Natural Resources
&

Dr. Tom Smiley, Bartlett Research Lab, Charlotte, NC

This program will discuss live oaks in urban environments and will cover from the roots to the tips of new growth. This program will be very informative and relevant to any professional who works with live oak trees: arborists, landscapers, engineers, urban planners, parks and recreation staff, landscape architects, residential and commercial builders, building supervisors, HOA managers and anyone interested in, and working around, live oak trees!

Where: Savannah Law School, 516 Drayton Street, Savannah, GA 31401

Date: Wednesday, December 14th, 2016

Time:
